Technical Details

V7 couples guaranteed quality with aggressive pricing to provide you with the tools you will need to make an intelligent buying decision. A few points on why you should consider the V7 USB 4.6W Speaker System:

Room Filling Sound:

The V7 USB Speaker System feature easy connectivity, clear acoustics and crystal-clear quality sound in an attractive, compact form factor. The V7 USB Speaker System is a conventional upgrade over standard PC speakers. You will be surprised when you experience the big sound that comes from this small speaker system.

Stylish Design:

The V7 USB Speakers will look great on your desktop. The speakers have a built-in magnet for horizontal assembly and placement.The compact size helps you keep your workspace free from clutter.

Plug-and-Play:

The plug-and-play design means you will not need to download any drivers to listen to your music. The V7 speaker system has one easy cord connection with accessible on-off switch and volume control on the speaker.

Quality Design:

The small V7 USB PC Speaker System provides a cable management solution to conveniently organize the cables in reducing desktop clutter. Power from the USB cable means no need for a power outlet cord. The speakers feature magnetic shielding that eliminates electrical or magnetic disturbance and unwanted interference when the speakers are placed near monitors.
